# Somaiya Vidyavihar University Vision

Our motto is: **ज्ञानादेव तु कैवल्यम् ।**

Knowledge alone liberates. Liberates from poverty, from hunger. Also to liberate one from the attachments that bind us to small-mindedness. Knowledge also provides opportunity. To make the life lived more meaningful. In the service of one's family, one's community, one's **समाज**, country, and indeed the world. Bearing in mind that there is no religion other than the life lived in the service of humanity

**न मानुषात् परो धर्मः।** We will strive to provide access and opportunity to build a more inclusive society.

Our education in any subject will reflect its timeless fundamentals, its current context, and applications. There is so much scientific discovery taking place, at the intersection of fields, of biology, computing, medicine, the social sciences and everywhere else. We will provide students and faculty with an environment to engage this world, to discover new truths, make new applications to create and share knowledge.

Our education will also be experiential. With projects that are 'real' and those that complement the learning inside the classroom. Our students and faculty will be at the cutting edge of change, to incubate companies, to create NGOs, and pursue any field of their passion.

so be holistic. Sports and physical exercise must be a firm part of the curriculum. For students to develop a love for sports, for recreation, for health, for teamwork, for competition. Our education will also instill an appreciation for art and culture..

In the Bhagavad Gita, Arjun asks Krishna how is one to control one's mind that is as fleeting as the wind. Krishna responds that it can only be done through practice and discipline.

अभ्यासेन तु कौन्तेय वैराग्येण च गृह्यते । We will strive to teach our students to learn to stay calm in our turbulent world.

And our education will also include the ancient Indian tradition, its culture, its depth, and its knowledge. We must keep the connection with our mother tongue and our languages. Languages are storehouses of culture, and the loss of a language takes with it much learning, stored through it over the ages.

Finally, our education will help students lead a full life, to fall in love with life. Our dream, is to build a world class research and teaching institution, that is global in the reach of its ideas, and universal in its service.

Welcome to our community.

## **A message from our Founder**

**Late Shri K J Somaiya**

***An all-round education must integrate Indian culture, values & morality into the curriculum.***

My dear young Students,

Welcome to you to the Institutions of the Vidyavihar! Your finest hour is here. The future belongs to you. Let us all zealously work together and dedicate ourselves to build India of our dreams. Remember, nothing was ever achieved without Hard Work. Be bold but be not bowled over. Let Truth and Duty be your watchwords. Never despair in the face of setbacks. Keep Courage and continue to work with Fortitude. Have Faith in yourselves and in the Almighty. Strive for your Goals and the Future is yours!

**Padmabhushan ,Late Shri K J Somaiya**  
**Founder of The Somaiya Trust**

## **A Message from our Chancellor**

**Shri Samir Somaiya**

### **Chancellor's Message**

“We do dream of making a world-class institution of teaching, research and service, and build on the aspiration of our founder. We need to imagine what makes for a good education. We need to determine that for ourselves, in our local context, and in the global world that we live in today.”

### **Somaiya Vidyavihar University has become a reality**

On the 26th of August 2019, Somaiya Vidyavihar University has become a reality. Many of our institutions will combine together to become a part of this University.

I had promised my grandfather, our founder, Padma Bhushan K. J. Somaiya, that I will, in my lifetime, endeavour to make Somaiya Vidyavihar an institution that any person in the world would want to apply to. This was a condition he made, when he allowed me to go study at Cornell. We traded dreams. My dream to go to Cornell, and his dream to make Somaiya

into an institution that his grandson, and by extension, others would aspire to attend.

**Becoming a University is a necessary part of that journey and that goal.**

**Jawahar Lal Nehru said at Indian independence:**

'A moment comes, which comes but rarely in history, when we step out from the old into the new' Later he adds' The achievement we celebrate today is but a step, an opening of opportunity, to the greater triumphs and achievements that await us.'

This is a similar time for us. Becoming a University is a time for charting our own course. On what we teach, and how we teach it.

We do dream of making a world-class institution of teaching, research and service, and build on the aspiration of our founder. We need to imagine what makes for a good education. We need to determine that for ourselves, in our local context, and in the global world that we live in today. Today, many of our institutions transition to University status. Our other institutions are also part of this journey toward excellence.

I would like to make our new beginning with the old Hindi film song:

आज पुरानी जंजीरों को तोड़ चुके हैंक्या देखें उस मंज़िल को जो छोड़ चुके हैंचांद के दर पर जा पहुंचा है आज ज़मानानए जगत से हम भी नाता जोड़ चुके हैंनया खून है नई उमंगें, अब है नई जवानीहम हिंदुस्तानी...

Thus, the college takes their mission to heart of producing not only good teacher educators but also potential researchers who could contribute in the field of education. The non-teaching staff including the technical staff is very helpful and cooperative too. Their contribution in making the online mode of teaching and learning a success is greatly appreciated. I would definitely recommend K.J Somaiya College of Education for the M. Ed program to all the aspiring teachers who want to bring the change in their lives as well as their students!!!*
